Career Objective

Motivated and detail-oriented Web Developer seeking to contribute to innovative development teams by building scalable, user-centric web applications. With practical experience in front-end and back-end technologies, as well as a strong foundation in cybersecurity and data analysis, I aim to create secure, high-performance platforms that solve real-world problems and enhance user experience.

Education

Bachelor of Engineering in Software Engineering, Hail University	2019/05–2024/06

Experience

IT specialist Intern – King Salman Hospital, Hail   2023/07- 2024/01

Assisted in securing the hospital's IT infrastructure from cyber threats while providing technical support to staff and the call center. Conducted data analysis and reporting using Python and Excel, managed Linux systems, and contributed to optimizing overall IT operations.

Projects
